NEW GUINEA IMPATIENS

PROVIDING EVERY POSSIBLE SOLUTION...

WITH A COMPREHENSIVE COLLECTION OF TEXTURES, PATTERNS, AND COLORS, OUR PORTFOLIO WILL ELEVATE CONSUMERS' INTERESTS AND GROWERS' PROFITS.

MAGNUM SERIES

The Magnum series is well-known and aptly named for its impressive, oversized blooms that grab consumers' attention at retail. The plants have appropriate vigor for larger containers and hanging baskets, and the varieties match up well for easy combinations.

PETTICOAT® SERIES

The Petticoat® lineup is the preferred solution for early-season sales. This series has outstanding uniformity and a full spectrum of solid colors, stars, and frosted bicolors. The varieties have medium vigor and are the earliest to flower, making them ideal for spring pots and baskets.

ROLLER COASTER SERIES

Maximize profits by offering consumers wildly unique flowers on one of their favorite bedding plant categories. The Roller Coaster varieties have wavy, three-dimensional blooms with vivid colors to provide ultimate interest in container gardens and front-of-the-border plantings.

SUNSTANDING[®] APOLLO SERIES

This series is our most popular choice for large landscape installations, featuring intense pure colors on plants with exceptional vigor. Perfectly matched across the colors, landscapers can mix and match for designer and seasonal color combinations. The full sun and full shade tolerance of SunStanding[®] varieties makes them a versatile option to use across all landscape beds.

SUNSTANDING[®] HELIOS SERIES

For growers looking for varieties suitable to smaller containers, or landscapers needing a front-of-the-border option, the Helios family offers the same characteristics as Apollo varieties, but with a 20% smaller plant habit, smaller leaves, and smaller, but more prolific flowers.

SUNSTANDING[®] JAZZY SERIES

Jazzy varieties add dramatic flair to the program with a bright tropical look. With intense neon-colored flowers on top of brilliant lemon-lime variegated foliage, these are showstoppers on the retail bench and in large combination containers. The decorative foliage of Jazzy varieties works equally well as an ornamental addition to combos, but with the added bonus of vibrant flowers throughout the summer.

Introducing Empress® Sun Kiss

Empress® Sun Kiss is a new sub-series of Empress® Sun Verbena from Dümmer Orange. The compact-medium vigor with mounding habit makes Empress® Sun Kiss the ideal choice for premium pots and smaller mixed combinations.

With heat and humidity tolerance breeding from its parent Empress® Sun series, the garden performance of Empress® Sun Kiss is second to none from spring into summer.

"Chef's Kiss" to Sun Kiss

Compact-medium habit provides a new smaller size for Empress® Sun lineup.

Vibrant jewel-toned flower colors are striking alone in premium pots, in Confetti Garden® mixes, and garden beds all season long.

Flowers appear on all sides of the plant which provide an umbrella of color, unlike other Verbena.

Heat & humidity tolerance allows for extended flower season and proven garden performance.

We love alternanthera for its colorful foliage and its versatility both indoors and out. It's a popular groundcover and used in mixed combinations where hot weather durability is a must. But these varieties are also fantastic as interior foliage items. Outdoors, these low-growing varieties of alternanthera are useful as an edging plant or the front of the border.
